

Medical Science Liaison

Role: Full-time, permanent

Location: Munich, Germany

The Role:

Due to continued global company growth, we're seeking an experienced and Customer focused **Medical Science Liaison** to act as the interface between our company and medical / scientific professionals, providing them with advanced disease state and product expertise in-line with industry regulatory requirements, while supporting our AVP (added value product) launches and pre-launches. As our subject matter expert, you'll be responsible nationwide covering the whole of Germany, you'll respond to enquiries from scientific and healthcare professionals acting as a trusted source of accurate and current information. You'll control NIS - clinical trials (Non Interventional Studies) and IIT's (investigator initiated trials) ensuring medical compliance. You'll provide medical information and training to the field force (KAM's) – this could include providing feedback from clinical trials, signposting relevant information, delivering educational presentations or participating in Consultant meetings. You'll develop the publication - and scientific project plan, set-up and schedule medical ad board and investigator meetings and generate real world evidence data amongst other role related tasks.

The Person:

- Will have significant experience in previous **Medical Affairs** roles (i.e. Medical Manager, MSL or KAM with medical background)
- Possess a rounded understanding of **pharmaceutical regulatory frameworks** and associated 'conflict of interest' clauses
- Hold an advanced degree in health sciences (e.g. PharmD, MD, PhD); with a broad expanse of medical-, product- and compliance knowledge. Particular expertise in biosimilars or the therapeutic areas of oncology and/or autoimmune would be beneficial
- Ability to be **concise and specific to your audience** – be that through written reports or engaging presentations
- A natural **team player**, you have excellent **communication and interpersonal skills, being fluent in both English and German.**

A Bit About Us:

Accord Healthcare is a global pharmaceutical company involved in the development, manufacturing and distribution of pharmaceutical products to over 35 European countries, one of the largest market footprints of any European generics and biosimilar companies. Our vision is to become a top 5 pan-region generics company by 2021. We are not just about delivering affordable medicines; our mandate is to deliver affordable medicines that make a real difference to patients' lives.

Being part of Accord means you will be part of our success story, we currently cover 95% of the EU population providing medicines in over 45 countries, and supplying 1 in 5 generic medicines in the UK. We're one of the largest providers of Chemotherapy treatments, one third of all Chemotherapy prescriptions dispensed across Europe use Accord products, between September 2018 and December 2019 we've delivered over 1.6 million injectable doses of oncology medicines, and provided oral oncology medicines to EMENA covering over 4 million courses of therapy. More recently we are building towards new innovation with our value added products by joining and emerging a new structure alongside the generic medicines.

How to Apply:

If you possess the experience, passion and ability to make this role a success then we would love to hear from you. Please send your CV to Recruitment_DACH@accord-healthcare.com by **15th March**.
